The primary goal of Spiritual Tours is to provide time to relax and meditate at your own pace while enjoying the serene quality of the world's tallest and most spiritual mountain range, "The Himalayas", in Nepal.

Spiritual Tours are designed to experience Nepal's spiritual history and have a deep, life-long experience. Each day we will show you various facets of Buddhism, Hinduism, and Tantra. There will be morning and evening meditation sessions in each of these religions. The sites you will be visiting are some of the most serene and spiritually enriched places on earth.

We are not only concerned with the outward experience, but also about the inner journey. These tours are personalized and very flexible. We will show you the different doors; which one you choose for your inner journey is up to you.

We are interested in showing you the cultural heritage of Nepal's, Tibet's, and India's forts, palaces, markets, etc. We also want to show you what is really valuable. To do that, your body needs to breathe clean air, and your mind needs to be calm without worry. You will be in the same vicinity as hundreds of sages and mystics who gained Enlightenment, and the tallest and most spiritual mountain ranges in the world: "The Himalayas".

Portland, Oregon Representative:

Gerry Villani is a well-traveled and experienced photojournalist with a wide variety of stock images suitable for multimedia use.
